eco-aminogro is a rich organic fertiliser made up of amino acids, vitamins and other essential bio-nutrients derived from a marine source. Plants rapidly absorb **eco**-aminogro due to the unique amino acid structure and produce very impressive results very quickly.

Excellent for all plants including lawns, veggies and fruit trees, pot plants, natives and in garden beds. *Approved for use in organic gardens.

HOW TO USE:

SITUATION	RATE (1 capful = 10 mL approx.)	FREQUENCY	Water into the soil around plants or use as a foliage spray. Combine with eco-seaweed for amazing results.	
Newly Planted Plants & Lawn	10 mL per litre of water	2-4 weeks		
Established Plants & Lawn	5 mL per litre of water	2-4 weeks		
Refill for 2L hose-on sprayer	200 mL per 2 litres of water	2-4 weeks		

NUTRITIONAL ANALYSIS^:

NUTRIENT	% w/v	
Nitrogen (N)	2.7	Plu
Phosphorus (P)	1.5	Bor Iror
Potassium (K)	0.3	^son

Plus 16 amino acids, vitamins, Calcium, Sulphur, Boron, Molybdenum, Zinc, Magnesium, Manganese, Iron, and Copper.

ome variation may occur due to the natural source of raw ingredients.
